-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM
THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1731

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 11, 15, 20 and 21-23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by GB 2077634.

3. Applicant's arguments filed 1/5/04 have been fully considered but they are not persuasive.

With respect to the rejection of the claims under 35 USC 102(b) applicants argue:

It is clear that claim 1 requires that the plate be formed in a two step procedure where the high relief pattern is established during the second step and not during the first step (the forming of the intermediate product).

In contrast, GB '634 discloses a two-stage process where a plate with a grooved profile 28 is formed during a first stage after which cell connections 30 and a lug 32 are formed in a second stage. See Figure 1, page 2, lines 24-42, and page 1, lines 69-71 of GB '634. There is no indication in GB '634 that any contribution to the grooved profile 28 is achieved during the second stage. Therefore, the disclosure of GB '634 is contrary to the explicit language of claim 1. As such, Applicant respectfully submits that the §102 rejection of claim 1, and all claims dependent thereon, is improper and should be withdrawn.

This argument is not persuasive. It is the examiners position that the intermediate product is the lead strip that is inherently "manufactured" in that lead strips do not occur naturally. Thus, the manufacturing of the lead strip would constitute the first step of the process, and the stamping operation on the left side of Figure 1 would read on the "second step" of the claimed process.

4. Claims 2-10,12-14 and 16-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher A. Fiorilla whose telephone number is (571) 272-1187. The examiner can normally be reached on M-F, 6:30am-3:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven P. Griffin can be reached on (571) 272-1189. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
